

INTERESTING DISPLAY
ART AND LOAN EXHIBITION

In the Masonic building has attracted a great deal of favorable attention

The Art and Loan Exhibition on the first floor of the Masonic building on Second street has been attracting a great deal of favorable attention during the past few days. It is being well patronized, but not any better than the merits of the exhibition deserves. It is conducted by the Ladies' Aid Society of All Saints' church on behalf of the church.

The society first intended to have a display of painted china, alone, but the work grew on them until they decided to enlarge the character of the exhibition and make it to include old china, old photographs, paintings, drawings, old lace, Indian exhibits, and in fact all curiosities of this description that would be of interest. The result has far exceeded the hopes of the originators. The large room has been beautifully decorated. A number of handsome cabinets contain old china, collections of coins, old lace, etc. The walls are hung with paintings and drawings, which attract a great deal of attention, both from their age and their associations. The china display is especially praiseworthy. The hand paintings on the china are cleverly executed. The principal exhibitors in this work are Mrs. C. B. Bowman, Mrs. W. D. Ferri, Miss Lettie Ross, and Mrs. S. S. Taylor, of Nelson, B.C., formerly of Edmonton. Among the paintings are several by Martin, of Toronto. Two views of the old Hudson Bay Fort by Mrs. F. S. Green of Edmonton are very interesting. Odd pieces of china, some one hundred years old and others two hundred years old, attract considerable attention. A lace handkerchief which dates from the year 1717 is exhibited by Mrs. Manuel.

There are numerous scattered exhibits of great interest, a few of which are:

An extensive exhibit of Indian relics, including pipes, coats, leggings, game bag, horn spoon, gun case, necklace tom-om, medicine bag, Labrador's Eau maux pipe, spear and arrow heads, knives and other articles. Dr. Flanagan and Mrs. Stephens were the principal contributors to this display.

Several paintings, water color and in oil, by Miss Fielders, and three scenes in Stanley Park, Vancouver, by Mrs. F. S. Green, are very much appreciated.

Hand lace and embroidery work over a hundred years old is shown.

Fibre work by the native women of Jamaica is shown by Mrs. Hammatt and Mrs. W. D. Ferri.

A very interesting souvenir is an old 'mourning locket' studded with pearls. On one side is a bust of Major Andre with Britain holding the Union Jack and placing a wreath on Andre's head. Major Andre was executed by Washington's orders as a British spy. In the back of the locket is a lock of Andre's hair. The locket now belongs to Mrs. L. Maistre.

A Masonic apron of the year 1807 is on exhibition. It belongs to Judge Scott, of this city.

Several collections of coins by Mr. J. Green are very interesting. Coins of the 15th and 16th century are shown.

No less interesting is a bound volume of the first four months' issues of the Edmonton Bulletin, dealing with pioneer life in Edmonton.

These exhibits which have been enumerated are merely a few of the two hundred and seventy-three that are to be seen. The exhibition is a highly creditable one, and even apart from its artistic nature is exceedingly interesting.

The principal contributors are G. W. R. Almon, Mrs. E. A. Braithwaite, Mrs. Bristol, Mrs. C. B. Bowman, Mrs. Wm. Boucher, Mrs. W. S. Edmonton, Miss Fielders, Mrs. Dr. Ferris, Mrs. F. Greene, Mrs. Gregg, Mrs. J. D. Harris, Mrs. Hammatt, P. C. Kidson, A. Kemp, Mrs. Kinnaird, Mrs. Manuel, Miss McRae, Mrs. McKay, A. McLeod, J. Green, Mrs. Richardson, Mrs. W. Rolfe, Miss Lettie Ross, Mrs. D. L. Scott, Mrs. C. W. Strathy, T. A. Stephen, Mrs. Slocock, Alex Taylor, Mrs. T. Turnbull, and Mrs. H. C. Wilson.

SUPREME COURT

After being out for almost four hours yesterday the jury in the case of King vs. Matt Simon on a charge of attempted murder, returned a verdict of common assault. Simon was given an option of one month in jail or a fine of \$50.

In the afternoon the case of King vs. Irvin Fijerczyk on a charge of attempted murder, came up for hearing. In a Gallic row Fijerczyk stabbed his companion with a knife. The case was tried by jury. Fijerczyk was found guilty of wounding with intent to do grievous bodily harm. The Chief Justice remanded him for sentence to the end of the Criminal Court.

The Leduc murder trial, King vs. Marienowski, Spaukel and Klombe, comes up at the Supreme Court on Monday next.

POLICE COURT

Thomas Pierson, a young man, nineteen years old, who has already served six months this year for obtaining money under false pretences appeared before Police Magistrate Cowan this morning, on three similar charges. Pierson issued checks to the value of almost \$300 but only three of these, two for ten dollars each and one for fifteen dollars, were cashed. On the first two charges Pierson was sentenced to six months in jail for each, the sentences to run concurrently. On the third charge judgment was reserved until two o'clock this afternoon.

WORLD'S LARGEST AIR SHIP GOES WRONG

St. Louis, November 14.—The airship of H. Francois of France, the largest flying machine in the world, was taken out of the aerodrome of the World's Fair to-day for the first time since coming here. When released from the ground the airship immediately rose to a height of about seventy-five or one hundred feet. The iron support beneath the rear of the airship broke after the machine had been in the air about ten minutes and the framework raised upwards, throwing one of the rear frames in the rigging. The fin broke and several of the upper supports were splintered.

PET STOCK ASSOCIATION

A meeting of the breeders of poultry and pet stock will be held in McDonald and Griebach's office Wednesday evening. A poultry and pet stock association was organized last winter in Northern Alberta. Its members include prominent citizens of Edmonton and Strathcona and at Wednesday night's meeting plans will be discussed for the holding of a poultry and pet stock exhibition in Edmonton this winter. Since the organization of this society interest in poultry, in dogs and other pet stock has greatly increased in Edmonton and Strathcona and this winter's exhibition promises to far surpass that of last winter.

DEATH OF MAJOR HAY

Washington, November 13th.—The United States Secretary of State has received a despatch announcing the death of his brother, Major Leonard Hay of the U. S. A., retired, in the 70th year of his age. He died last night at the Hay homestead in Warsaw, Illinois.

Alberta Apples and Small Fruits

North-West Farmer:

Since it was first suggested that apples might be grown in Southern Alberta, there has scarcely been time for any number of trees to produce. At a few fairs this year very good samples of standard apples were shown and there appears very good reason for believing that the time is not far distant when the irrigated lands may produce apples in sufficient quantity to supply local needs. Where fall wheat and clover grow, as they do in the southern country towards the foothills, apple orchards under the protection of a heavy wind-break usually produce profitably.

Without an experiment station in Alberta, however, it will be not be known what varieties of fruit, as well as some grain and vegetables, are the best suited to the soil and climate. Jas. Murray, B.S.A., Western Superintendent of the Seed-growers Association, who has been carefully studying the local conditions of the West, and who has been some time in Southern Alberta, while in conversation with a Farmers' Advocate recently gave it as his opinion that apples would likely be grown to some extent on irrigated lands. In many respects Western Canada has only touched the fringe of her possibilities.

The district surrounding Ponoka is becoming known for having grown small fruits. During the summer just passed strawberry shipments from Ponoka were frequent and quite extensive, and the acreage is to be increased. With proper attention most small fruits do exceedingly well, and there is no reason why Alberta grown small fruits should not supply the home trade. Every farmer should have a small patch of fruits, including strawberries, raspberries, currants, etc., at least large enough to supply the table. Fresh fruit during the summer season is considered by too many on the farm a luxury well nigh impossible to obtain, whereas, with a little attention all that might be used could be grown. Quite a few are doing it, why not be one of that number?

A Concert by Your Own Fireside

If you own a

"The Berliner Gram-o-phone"

And such a concert as you could never hear in any theatre or concert hall. Imagine the glorious voices of the great operatic stars—the genuses of the Vienna—the wizards of the Paris—sons of the Cold Stream Guards' Band—Cordic Songs—clever Musicians. All are at your command on one programme for one evening's entertainment, or, if you will, a special concert.

Think what it would cost in time and money to enjoy all these, yet you can have them in your own home—very tone, every note, reproduced with clearness and life-like purity, on the Berliner Gram-o-phone at a merely nominal cost.

Price of Gram-o-phone complete with 3 Records \$16.50 to \$45
Guaranteed for five years. "It is made in Canada."

Sold on easy monthly payment if desired. Write for particulars, Catalogue and list of records.

Records: = 7 inch \$1 per doz. 10 inch \$10 per doz.

Always exchange your Berliner Gram-o-phone Records. If you buy one doz. records in each doz. you are free for exchange. In this case, you can buy two Records to give a copy for four.

Manufactured by

TUESDAY, NOVEMBER 15TH, 1904

THE WEATHER

To-day is the 15th of November, threshing is nearly completed and fall plowing is still in progress. The river is still open and rats of timber are still passing down. A little thin ice is running in the river and some ice has formed at the banks and in slack water. Hardy flowers such as stocks, daisies and pansies are still in bloom in some of the town gardens. The days are calm and the nights clear without being cold. Taken altogether it has been and is a remarkably fine fall.

THE NINETEENTH BASE LINE

Mr. Bray, D.L.S., returned last week from surveying the 19th base line west from the 5th meridian. This line runs parallel with, and passes a little south of Lesser Slave Lake. The line was carried westward to a point about opposite the west end of the lake. Mr. Bray went north last spring by way of Athabasca Landing. His supplies were taken up the Athabasca by boat and his horses driven overland to a point opposite the mouth of the Lesser Slave river. There the work of the summer commenced. The country passed through a chiefly timbered, there being a great deal of excellent poplar and spruce. The Indian reserves at Swan river and at Sucker creek were seen. The Indians had good potatoes on all three. There was a sharp frost in June, and another in the latter end of August, but the season generally was free from frost. The summer was dry, but the early fall was wet. The later fall was the same as at Edmonton.

VERMILLION NOTES

Mr. Dinwoodie, of Dinwoodie P. O., about thirty miles beyond Vegreville, was in the city yesterday. The Vermillion valley has recently suffered from a very disastrous prairie fire. It started on October 27 between Vermillion Valley P. O. and Tofield, and burned north and then east to between the Grizzly Bear Coulee and the Battle river. For three days the fire raged over a tract of country about eighty miles long by from ten to thirty miles wide. The fire was a very heavy blow to many of the ranchers in that district. Many of them lost large quantities of hay. In many cases the fire came upon the rancher so suddenly that he had no time to burn guards around his stacks. However, the loss in hay will not be a great burden, as there were such great quantities of hay put up in that district this year, and numerous ranchers have plenty to go beyond their requirements. Already several subscription lists have been circulated among the more fortunate ranchers, and a large quantity of hay, and in several cases supplies of other descriptions have been made. The ranchers east of Birch Lake suffered most. There were a considerable number of Old Country settlers in that district, who were largely unacquainted with the proper methods of fitting fire. Linn Bros. lost their bullock, hay, grain and even their oxen, which were in the stable at the time. A man named Todo lost his house, stable, hay and

eats and \$150.00 in cash, which was in the house. B. C. Gilpin, of Gilpin Post Office, lost his stable, hay and grain, as also did M. Kiloran, who lives near Linwood P. O. These were the heaviest sufferers, many of the others losing their hay only.

There is an abundance of hay, sufficient to winter all the stock, left in the country.

Ten convictions by local justices of the peace for setting out fires have followed as a result of the recent fire, and strict efforts are being made to see that the carelessness which is said to have led to the recent fire does not occur again.

Railway construction work in the Vermillion Valley is about over for this season. Many of the outfits have been removed from their contracts pending the approaching winter. Sub-contractor Baker has a number of grading gangs at work on this side of the Vermillion river, and about four miles north of Vegreville. Many of the grading outfits will winter in the Vermillion.

ASTLEYVILLE

Threshing is completed in this district. Oats and barley have turned out rather light. There are a few very good samples of wheat.

A literary society was formed last week in this district, with Mr. Coglan as president, Mr. Wray vice-president, Mr. Roy Taylor treasurer, and Mr. G. Warren secretary. Committees for reading circles and programmes were also selected. We are very pleased to report the formation of a much needed literary society, and we are sure that it will be much appreciated by the young people of the district. We are also very pleased to state that Mr. Coglan is president. A more energetic man for the position could not be found, and we wish the society success. Meetings will be held in the school house weekly and the society will be known as the Sturgeon Valley Literary Society.

Mr. and Mrs. Cory and family have returned to Edmonton.

A large prairie fire was seen north of here on Tuesday last. It is reported to have done some damage to haystacks.

A but erly was flying around here on Thursday evening last enjoying the warm sunshine, making one think of approaching summer instead of winter.

Mr. F. Kirby returned from the Bar Colony this week, where he had been taking freight. He was delayed on the way there by prairie fires, which have done considerable damage, destroying hay, and buildings, leaving some families homeless.

November 12, 1904.

Fort Saskatchewan Items

Reporter:

Mr. Gus Doze, of Beaver Hills, had an accident while crossing the river last night, and we are informed lost his load of freight in the river. As the particulars are meager we are unable to describe the affair, and whether it was a defect in the ferry or a frightened team we are not in a position to say.

William Ellis employed by Revillon Bros., Edmonton, was in town Friday last on business connected with the above firm. It is possible that Revillon Bros. will open a branch here in the near future.

F. Fraser Tims, of Edmonton, and F. D. Tims, of Battleford, were in town on Sunday; it is rumored that Mr. Tims will cut and clear all roads through his property adjoining the Chalmers Estate which was recently surveyed into town lots.

One thing noticeable this fall is the very large amount of fall plowing being done by the farmers. The impression has got abroad in the States that the fall season is too short to permit of plowing here. One visiting here this season should at once have that idea dispelled from his mind. Next spring will see hundreds of acres of ground ready for crop as soon as the season opens.

THE WISE OLD MAN WITH JOHN BULL IN THIBET

When the Old Man jumped the Chinese wall,
He was not surprised to see,
That chunky, spunky, scrappy, happy,
Jolly ruler of the sea.

"Good boy, John Bull, march on," cried Mars.
"And carry civilization
With Gatling guns and IRVING CIGARS
To the heathen Thibet nation."

The Society Woman

Though hurried and rushed in society's
whirls,
Her complexion is rosy and fresh as
a girl's;
Well she knows, though she dances far
into the night,
"Abbey's Salt" in the morning, will
make her all right.

Society people recognize the value of
ABBEY'S SALT as a health preserver and
complexion beautifier. ABBEY'S SALT takes away
the baneful effects of hasty, irregular eating—over-
comes the ravages of late hours and bodily fatigues.

ABBEY'S SALT is a gentle, mild, yet perfect
tonic & laxative. It regulates the stomach and
bowels—keeps the blood pure—the eyes bright—
and the skin fresh and beautiful.

Abbey's Effervescent Salt
IS NATURE'S BEAUTY DOCTOR

APPEAL FROM PORT ARTHUR

The Wife of General Stoessel issued an appeal to the Wealthy Russian Merchants of Ku-sa-ki, Japan, for Aid from Second Pacific Squadron.

Washington, November 15. — The Russians will pursue the war in the far east to the bitter end, that is, until Russia has "conquered." These were the opening words of an emphatic statement made at the Russian embassy to-day by Count Cassini, the Russian ambassador. Several times the ambassador, in the name of his Government, has categorically denied the possibility of any intervention in the war, but the reoccurrence of rumors that the powers contemplated mediation, has caused the ambassador to reiterate on behalf of his Government its position regarding intervention or mediation of any kind.

General Kuropatkin's Headquarters, November 15, v. a Mukden, Sunday (11 a.m.). — Frequent fighting between opposing patrols occurred to-day. The Russians, with a heavy howitzer and six inch gun batteries, shelled the Japanese trenches and gave working parties little respite.

Numbers of Russian officers are arriving at the front to replace those who have fallen. The Russian army

is realizing more fully day by day the enormous task involved in driving back the Japanese. Great hopes however have been placed on Russia's Second Pacific Squadron. The troops are now better fed than at any previous period, and the roads are in good condition. Reinforcements will leave the trains at stations higher up the line and march to Mukden.

Pitakoff, Poland, November 4. — The army of reserve men of 1887 and 1889, who were to have been mobilized, have been sent home.

St. Petersburg, November 14. — M. Joffre, the millionaire merchant, of Moscow, has received a pathetic letter from Madame Stoessel, wife of General Stoessel, dated Port Arthur, October 24, appealing to rich Muscovites for money to assist the valiant wounded defenders of the fortress some of whom have lost both arms and others either an arm or a leg. Some of them are blind, and others are suffering from wounds in the spine, and who will be cripples for life. There are very many such unfortunates.

ANOTHER PEACE TREATY

Vienna, November 14. — In an interview to-day between Ambassador Storer and Count Goluchowski, the latter said that his Government would gladly discuss the proposition of arbitration treaty between the United States and Austria-Hungary. Regarding Secretary Hay's note proposing a new peace conference, Count Goluchowski said that he was already acquainted with the opposition, and said that his Government would certainly be represented at the conference.

A SEA SIDE FATALITY

San Diego, Cal., November 14th. — Miss Isidore Rush, an actress, to-day died of heart failure while bathing in the surf. The shock was caused by an immense wave which carried her into deep water. Half a dozen members of the theatre company were in the surf and assistance was at once hurried to her. She was unconscious when brought to the shore. Physicians worked over her for an hour, in vain. Another member of the company, Milton Heriot, who endeavored to rescue Miss Rush was rendered unconscious but was revived after vigorous treatment.

RAILWAY ACCIDENT

St. Louis, November 14th. — The Northbound Wabash passenger train was partly wrecked to-day in the outskirts in north St. Louis on a sharp curve of the belt line tracks of the Merchants Terminal railway association near the west approach to Merchants bridge over the Mississippi, injuring fourteen persons. The accident was caused by the wheels of the tender leaving the rails on the curve.

JAP PRINCE IN WASHINGTON

TON

Washington, November 14th. — Prince Fushimi, the adopted brother of the Mikado, arrived in Washington to-day and assumed on the first time since his arrival in the United States his official personality as Prince of the Royal Household of Japan.

GUILTY OF EXTORTION

New York, November 14. — Philip Wessner, a former labor leader, was convicted of extortion, and was to-day sentenced to the state prison for not less than one year and eight months. He was more than two years in jail eight months.

WEBER MURDER CASE

Auburn, November 14. — The Weber alleged murder case is progressing slowly as nothing can be done until the entire ruins have been run through the miners' sluice. The weapon that was used to commit the supposed murder has not been found. The debris will all be worked over to-morrow, and if the revolver will which the family were killed is not found, Julius Weger, the father, will hardly be vindicated.

The Canadian Northwest Homestead Regulations

Any even numbered section of Dominion Lands in Manitoba or the Northwest Territories, excepting Range 26, which has not been homesteaded, or reserved to provide wood lots for settlers, or for other purposes, may be homesteaded upon by any person who is the sole head of a family, or any male over 18 years of age to the extent of one quarter section, of 160 acres, more or less.

ENTRY.—Entry may be made per the district in which the land to be taken is situated, or, if the homesteader desires, he may, on application to the Minister of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, or the local agent for the district in which the land is situated, receive authority for someone to make entry for him. A fee of \$10.00 is charged for a homestead entry.

HOMESTEAD DUTIES.—A settler who has been granted an entry for a homestead is required by the provisions of the Dominion Lands Act and the amendments thereto, to perform the conditions connected therewith, under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the father (or mother, if the other is deceased) of any person who is eligible to make a homestead entry under the provisions of this Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of this Act as to residence prior to obtaining patent, may be satisfied by such person residing with the father or mother.

(3) If a settler has obtained a patent for his homestead, or a certificate for the issue of such patent countersigned in the manner prescribed by this Act, and has obtained entry for a second homestead, the requirements of this Act as to residence prior to obtaining patent may be satisfied by residence upon the first homestead, if the second homestead is in the vicinity of the first homestead.

(4) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of this Act as to residence may be satisfied by residence upon said land.

The term "vicinity" used above is meant to indicate the same townships or an adjoining or cornering township.

A settler who avails himself of the provisions of Clauses 2, 3 or 4, must substitute 20 head of stock, with buildings for their accommodation and cultivate 30 acres of his homestead and have besides 80 acres of pasture land.

The privilege of a second entry is restricted by law to those settlers only who completed the duties upon their first homestead to entitle them to patent on or before the 2nd June, 1899.

Every homesteader who fails to comply with the requirements of the homestead law is liable to have his entry canceled, and the land may be thrown open for entry.

Application for patent should be made at the end of three years, before the local agent, sub-agent, or homestead inspector. Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands, at Ottawa, of his intention.

Information.—Newly arrived immigrants will receive at the Immigration Office, in Winnipeg, or at an Dominion Lands Office, in Manitoba, or the Northwest Territories, information as to the lands that are open for entry, and from the officers in charge, free of expense, advice and assistance in securing land to suit their information respecting the land, timber, coal and mineral laws, as well as respecting Dominion Lands in the railway belt in British Columbia. On obtaining upon application by Secretary of the Department of the Interior, Ottawa, the Commissioner of Immigration, Winnipeg, Manitoba, or to any of the Dominion Lands Agents in Manitoba or the Northwest Territories.

JAMES A. SMART,
Deputy Minister of the Interior,
and to addition to Free Grants
land to which the regulations above
refer, thousands of acres of
out desirable lands are available for
use or purchase from railroad and
other corporations and private firms
in Western Canada.

TELEGRAPHIC

JAPANESE PRINCE

VISITS THE UNITED STATES

He will deliver a message of Good Will
From the Mikado to Uncle Sam

Chicago, November 13.—Prince Furukawa, a member of the Japanese royal household, and social representative of the Mikado, accompanied by three of his countrymen, and a retinue, arrived in Chicago to-night over the Chicago and North Western railway, on their way to Washington to call on President Roosevelt, and visit the Government offices.

Washington, November 31.—His imperial Highness, Prince Sadanaru Furukawa visits with a double purpose, first to deliver to the President of the United States, a special message of good will from the Emperor of Japan, and second, to visit the World's Fair at St. Louis.

Mr. Pierce, the Third Assistant Secretary of State, will act as his personal representative, to attend the prince and arrange for his entertainment.

VESSEL WRECKED

RAN ON A ROCK IN A HEAVY SEA

Her entire crew is believed to have been lost. Vessel will be destroyed

Woods Hole, Mass., November 13th.—The two-masted schooner, *Archduke*, of Rockland, Maine went ashore in a ~~sea~~ nor'easterly gale-shorely before dark to-day, about three quarters of a mile west of Tarpaulin cove on the island of Nauset. At sunset the waves were breaking over the craft masthead high. No trace of the crew have been found and fears are entertained for their safety. The vessel is in a particularly exposed condition and the chances of her being saved are slim.

TWO DESPERADOES

GAVE THEMSELVES UP

Driven by Hunger and Cold to Surrender to the Police

Charlestown, Va., November 13th.—Edward and Geo. Jackson, two brothers, of Montgomery, for whom rewards have been offered by the state and county authorities surrendered to-day and are now in the county jail at Charlestown. The men had been secreted in an abandoned coal mine just outside Montgomery and were driven to surrender by hunger and cold. Word was sent to Montgomery by a mountaineer and on arrival of a squad they gave themselves up without a struggle. There are now six prisoners implicated in the Montgomery shooting. Charlestown jail is not considered safe to hold any of them at the present time.

MINTO'S DEPARTURE

IS SET FOR WEDNESDAY

Their Excellencies will hold a public Farewell in the Ottawa Drill Hall before leaving

Ottawa, November 14th.—Lord and Lady Minto leave on Wednesday next. They will bid farewell to the citizens. They will be one leaving.

CANADIAN CLUB

OF NEW YORK CITY

Are anxious to have Sir Wilfrid or Mr. Fielding address them. Early Meeting of Parliament

Ottawa, November 15th.—Wallace Downey, President; Frank McLoughlin, Treasurer, and J. A. Bucknell, Secretary, of the Canadian Club, New York, are here to see the Premier with a view to getting him to address the Club. If they cannot get Sir Wilfrid then they want Mr. Fielding.

The delegation had an interview with the Premier to-night. He regrets that on account of other engagements and the preparation for the meeting of Parliament early in the year, he would not be able to accept their kind invitation. The delegation will endeavor to see Mr. Fielding who is expected here to-morrow.

ITALIAN ELECTIONS

END IN RIOT AND TUMULT

Defeated Socialists Angered by their Defeat made Riotous Demonstrations

Rome, November 14.—Definite returns from the second balloting strengthens the majority of the cabinet, while the extreme left loses about twenty seats altogether. Signor Ferrini, socialist leader, has been elected at Porto Maggiore. Defeated socialists made a demonstration at Milan, Florence and Genoa, but the attempted disorders were quelled by troops. The latter were stoned at Florence, while at Genoa revolvers were fired and there were severe casualties. Order was at last restored everywhere.

GREAT SNOW STORM

ON THE ATLANTIC COAST

Telegraph and Telephone communication cut in all directions. Cities are isolated

New York, November 15th.—The effects of the storm were more far-reaching than in any similar disturbance since the great blizzard of 1888 became evident to-day when the disarrangement of wire communication continued almost as complete as at any time during the height of the storm. Up to ten o'clock many points were completely isolated while whole sections were reached by the most circuitous routes.

The Massachusetts storm conditions did not show much improvement at noon, although construction and repair crews had been sent out in every direction by telegraph and telephone companies.

New York, November 15th.—By means of a telephone wire between Baltimore and Chicago the news reports were carried over the regular wire between New York and Baltimore. When it reached the latter place it was transferred a distance of ten blocks to the telephone office by cable; then forwarded by telegraph over the long distance telephone and at Chicago was telegraphed back to Washington and other cities which could not be reached over regular routes.

NEW JAPANESE LOAN

San Francisco, California, November 14.—One hour after the subscription for the new Japanese loan was opened at the Nevada National Bank, \$8,000 had been subscribed by the people of San Francisco. The largest individual subscription was for \$600.

SUICIDE AT SEA

Plymouth, England, November 14.—The commander of the North German Lloyd steamer *Kaiser Wilhelm III.*, on her arrival to-day reported that Adam Weiss, of Chicago, a passenger on the steamer, which left New York on November 8, committed suicide two hours after leaving the dock at New York. He shot himself in the second steward's cabin and died a few minutes later.

RIOTING IN RIO

Rio de Janeiro, Brazil, November 14.—All business is suspended here in consequence of rioting yesterday as a result of the opposition to the compulsory vaccination law. It is believed that the opposition to vaccination is only a pretext, for the disturbances were really instigated by discontented politicians.

FRATELLI AL

THE WAR SITUATION

Headquarters of the First Japanese Army in the Field, via Fusan, November 13.—The Russian forces are still encamped north of the Shako river. The bombardment by the Russians of the Japanese lines has lessened lately. From the beginning they accomplished surprisingly little damage, although on many days a hundred big shells were fired. No Japanese were killed and very few injured.

Cheloo, November 13.—Everything is quiet in the vicinity of Port Arthur to-day.

Tokio, November 13.—A despatch received from the Japanese Manchurian army to-day says: "In the direction of the left army the enemy attacked from Wuchuan on November 11 at 12.20 o'clock in the morning, but were repulsed. In the eight one hundred infantry and three hundred cavalry appeared in the direction of Siaozaiton. Our force stationed there repulsed them and the Russians retreated to Manchu Antzu. The Russian losses were 60 and ours were six."

Tokio, November 13.—A draft of war that the Government plans to submit to the Diet shows a proposed increase in import duties of \$750,000 divided among a large number of articles. The increases are small except on tobacco, glass ware, overages, kerosene. The budget remains the same as announced by the Associated Press on October 31. For war expenses, \$885,000,000, and for ordinary expenses, \$64,000,000; except that further reductions will be made in the ordinary Government expenditures.

Tokio, November 14.—It is reported that the armored cruiser Grombo struck a rock and was severely damaged at Vladivostock. It is understood that the accident happened during the trial of the Grombo after repairs on her had been completed.

St. Petersburg, November 13.—Russia is facing a great internal crisis which in the minds of intelligent Russians overshadows in importance all questions relating to foreign politics. A new broad and liberal movement seems not only under way but gaining momentum day by day. A test feature of it is that it is entirely divorced from any radical revolutionary propaganda.

ELECTRIC LIGHT FOR THE FORT

For some time past the Fort Saskatchewan council have been conferring with a committee of the Edmonton city council with a view to purchasing the old electric light plant. The town has received offers for parts of this machinery but refused them believing that it would be more satisfactory to sell it as a unit. The Reporter endorses the act of the Fort Saskatchewan council in endeavoring to install electric lights as follows:

The prospect of seeing our town well lighted in the near future is one which should be of great interest and have the support of all citizens. It is understood that the town council are in communication with Edmonton in regard to the purchase of plant now there and it is to be hoped that satisfactory terms and prices will be obtained and that the work of installing the plant, if it is purchased, will be pushed through at an early date. The advancement of the Fort necessitates good light, the cheapest and safest. The streets, on dark nights on account of the scantily provided sidewalks, make it dangerous to pedestrians and unless they take with them their very useful friend, the electric lantern, it is extremely difficult to get around without falling into a ditch or an old cellar, of which quite a few exist within the town limits. A committee was appointed to canvass the town regarding the number of lights the ratepayers and others would require.

MAIL ROUTES AND SERVICES

Mail routes and services to and from Edmonton Post Office are as follows:

With Strathcona mail is exchanged morning and evening.

LOCAL

—The close season for whitefish expires to-day, November 15th.

—The ferry at Walter's mill stopped running yesterday for this season.

—The regular meeting of the Edmonton city council will be held this evening.

—The Art and Loan Exhibition will be continued this evening at the Masonic building on Second street.

—Mr. and Mrs. D. Carnegie, M. Carnegie, and Mr. and Mrs. A. Smith comprised a party of Scotch immigrants who arrived in the city last evening.

—Calgary papers speak appreciatively of Walker's Commissaries who present 'Brown's in Town' and 'My Friend From India' in Edmonton Wednesday and Thursday evenings of this week.

—Small cakes of ice are coming down the river to-day, but it as yet shows no sign of freezing over. This is evident from the fact that a raft of logs passed down from up the river this morning.

—While Emile Lema, of the Glengarry settlement was driving down the Ross grade yesterday with a load of wheat to the Dowling Mill, his horses became frightened and ran away. The wagon was badly broken, and one of the horses had its leg broken.

—Regina Standard.—The waterworks will be in operation in a week. The work on the new dam, for which Mr. Anticknap is the contractor is nearly completed, and will be finished inside of a few weeks. There are only two hundred feet of pipe yet to be laid to one of the water tanks to be turned into the mains.

—Mr. Coulter, D.L.S., left last week with his party to survey the 15th base line west from the 9th to the 6th meridian. The Government evidently intend to get the country northwest from Edmonton to the mountains ready for the settlements which will follow the construction of the Grand Trunk Pacific.

—Reporter, Nov. 15th.—A largely attended meeting of the rate payers of Fort Saskatchewan took place in Langworthy's Hall last night to discuss action in the matter of a proposed railway and traffic bridge at Fort Saskatchewan. Mayor Langworthy, as chairman, called the meeting to order at 8.30. The subject of a proposed railway and traffic bridge was discussed at some length and it was decided to take the matter up with the C. N. R. to ascertain if they were agreeable to a joint bridge.

—Phoenix.—On Saturday last the track laying on the Canadian Northern Railway was completed to and across the bridge at Clark's Crossing, the first train passing over on Monday last. From now on the work will be pushed to the Elbow where they expect to reach before the month closes. The Railway Commission has granted the line a crossing over the Qu'Appelle and Long Lake Railway at Clark's Crossing. It is hoped that they will apply for running powers from that point into Saskatoon. If this is done the inevitable washout in the spring will not have the effect it had upon Saskatoon last spring, as traffic would be open to us from the north.

PERSONAL

S. Chivers Wilson, of Regina, is in the city to-day.

Rev. C. H. Innes left this morning for Wetaskiwin.

Rev. Ross took a business trip to Calgary this morning.

Geo. Fox left this morning on a short visit to Wetaskiwin.

T. A. Gregg, formerly of Edmonton, arrived in the city last evening.

Principal Riddell, of Alberta College, returned to the city last evening from down the line.

J. K. McDonald, a former Edmonton boy who is now Acting Deputy Attorney General under the North-West Government at Regina, arrived in the city last evening.

SPECIAL THANKSGIVING

Contributed:

The Public Hospital is getting a lot of free advertising these last few days, which, it is to be hoped, will result in some tangible good for all concerned.

Donation Day was not as well observed as it should have been, and the needs of the Hospital are so imperative that it has been thought advisable to make a special effort in its behalf.

Wednesday, the day before Thanksgiving, was designated as the day. Messrs. Butchart and Henry have kindly offered to take charge of anything left at their real estate office. This place is central and accessible and there is not the excuse of inconvenience. Every home has something which can be spared and the needs of this home for the sick are so numerous that one can scarcely make a mistake in one's contribution. Pillows, bedding, linens, (not towels now,) night gowns, night shirts, bedroom slippers, invalid trays, teapots, teaspoons, preserved fruits, jellies, vegetables, etc., etc., even money will be accepted. Make your own Thanksgiving day, spent with loved ones in the home, happier because of something done for those languishing on beds of illness, or for the comfort of the nurse who in whom often rests results of the battle for life. Don't forget the cause in aid of the Public Hospital and the day, Wednesday, the 16th. Don't forget the place, the office of the Great West Land Company.
